

WHO WE ARE

Display Corporations is a company specialized in the supply and management of new digital communication systems: LED walls, displays, dynamic shop windows, audio and lighting systems for communication and entertainment.

We offer customized video and audio solutions for different uses, both indoors and outdoors: corporate communication, shows, sporting events, conferences, cultural activities, public environments.

The continuous investment of resources allows us to use cutting-edge equipment and latest generation systems. Furthermore, our specialized technical assistance service guarantees perfect functioning and rapid resolution of any malfunction both on the equipment supplied by us and on existing systems.

We collaborate with event organization agencies, fairs, sports clubs, administrations but also shopping centers and individual businesses.

Design, consultancy, sales, rental and assistance: from small to large companies, Display Corporations is the ideal partner for the perfect success of your event and your communication.

WHAT

Indoor/outdoor modular LED walls
LED displays

Concerts
Congresses
Rallys
Sports events
Shopping centers
Sports facilities
Airports

SERVICES

Sales
Operational rental
System design
Transport and installation
Configuration
Audio / video / lighting direction
Remote management
Technical assistance

LED SOLUTIONS

Our LED walls and displays are modular and versatile high-resolution systems, ideal for most uses, both indoors and outdoors. All our systems are available in different pitches* and can be purchased or rented as needed.

NOTE - Why are pitches important?

“Pitch” refers to the density of LEDs in a light panel, defined by the letter P combined with a number. The number indicates the distance in millimeters between one LED and another. The closer the LEDs are to each other, the higher the resolution and definition of the image. The choice of pitch depends on the distance from which the viewer will look at the panel.

Pitch P1.25 / P1.56 / P1.667 / P1.875 > close-range viewing

Pitch P2 / P2.5 / P2.9 / P3 > minimum distance **2 meters**

Pitch P4 > minimum distance **3 meters**

Pitch P5 > minimum distance **4 meters**

Pitch P6 > minimum distance **5 meters**

Pitch P8 > minimum distance **7 meters**

Pitch P10 > minimum distance **9 meters**

Pitch P12 > minimum distance **11 meters**

INDOOR

We offer a range of LED walls and displays specifically designed for indoor use consisting of small pitch screens, with front or rear maintenance.

The small dimensions are ideal for positioning in closed environments such as shops and offices but also shopping centres, gyms, hotels, conference centres, airports and television studios.

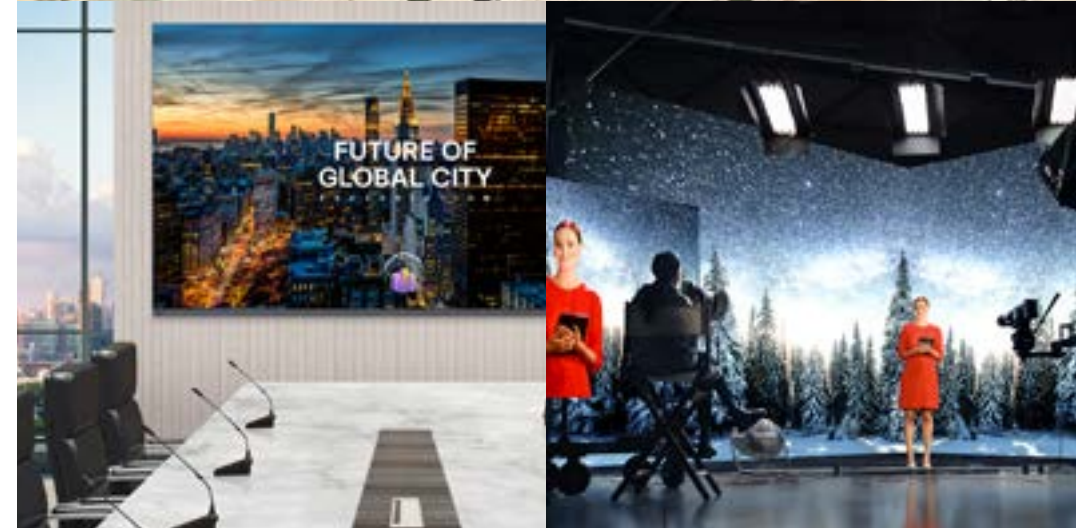

LED WALL INDOOR

We have a wide range of modular LED walls, with 50x50 cm or 50x100 cm modules and with P2-P3-P4 pitch.

The modules can be combined to cover large surfaces, which can be used as walls, displays or digital furnishings.

All modules are characterized by:

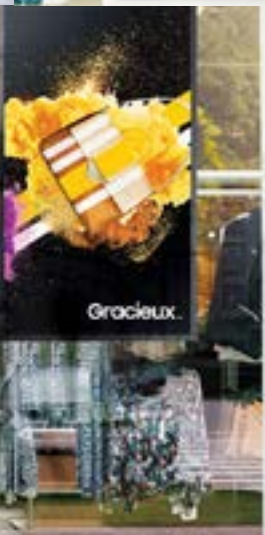

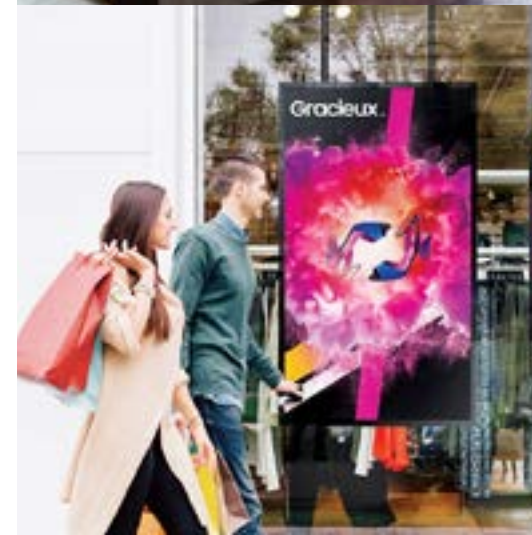

- **High contrast**
- **Optimal viewing angle**
- **High refresh rate**
- **High brightness**
- **Fidelity of image and color reproduction**

LED DISPLAY TOTEM

Ideal for setting up LED shop windows, such as promotional displays or information points, self-supporting, easy to install and minimal maintenance.

Available in P2-P3-P4 pitch, with rental or sales solution.

WINDOWS LED DISPLAY

Innovative solution for setting up windows while maintaining visibility from the inside, thanks to the transparent LED system.

Available in P2-P3-P4 pitch, with rental or sales solution.

OUTDOOR

Our outdoor solutions satisfy all external communication needs: high visibility even in direct light conditions, modular and customizable in size and shape.

These characteristics make them perfect, as well as for classic advertising communication, also for shows, concerts, sporting and cultural events and rallies.

AMAZING ESSENCE & OIL

LED WALL FOR COMMUNICATION

LED walls for communication are a high-impact tool, capable of attracting attention from afar.

Thanks to the modular structure, we can create systems of any size with an excellent quality/price ratio. The cabinets, made of aluminium, guarantee long life, high resistance to atmospheric agents and excellent image quality.

Remote content management, front or rear maintenance, available with rental or sales solution.

LED WALL FOR EVENTS

Events such as concerts, shows and demonstrations would not have the same impact without the presence of a LED wall.

Our modules are designed and created to create unparalleled installations, to give spectators an engaging and unforgettable experience.

LED walls for events are available in different steps depending on the size of the stage and the number of spectators, with a rental solution.

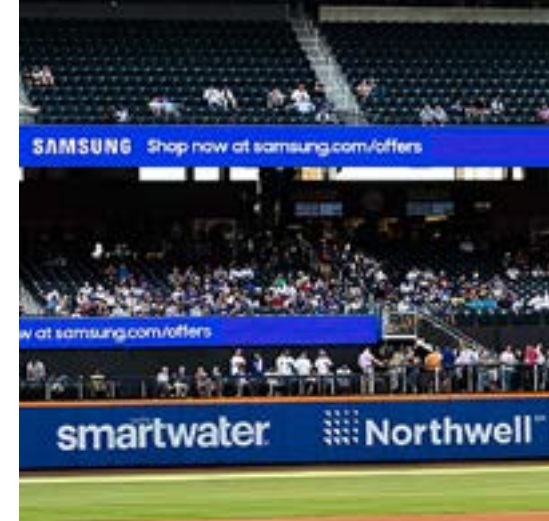

FIELD-SIDE LED SCREENS

Our pitchside LED screens are the most effective tool for giving the right emphasis to advertising and institutional messages in sports environments such as football pitches and sports halls but also tennis and padel courts, ice rinks and skating rinks.

In addition to the characteristics of classic LED walls, this type of screen is equipped with additional protections to guarantee maximum effectiveness and functionality over time.

Remote content management, rear maintenance, available with rental or sales solution.

LED SIGNS

The LED business sign takes the communication of your business to a higher level, increasing visibility and encouraging visits. Modular, with a minimum height of 50 cm.

Available in P2-P3-P4 pitch, with rental or sales solution.

AUDIO / VIDEO / LIGHTS SOLUTIONS

Display Corporations is not just ledwall, but also offers a series of complementary services for the perfect success of your event, with 360° customer support.

You take care of the organization, we'll take care of all the technical part!

SERVICE AND AUDIO DIRECTION

Are you organizing a show, concert or event? Display Corporations can take care of the entire audio part: microphones, speakers, mixer, cabling and control, for an event that can be seen... and heard!

Our sound engineers have thirty years of experience in the music sector and live music events.

SERVICE AND VIDEO DIRECTION

Display Corporations has all the equipment and technicians necessary for the perfect success of an event with video shooting: fixed and mobile cameras, spidercam, multi-channel control room and, obviously, highly qualified cameramen.

SERVICE AND LIGHTING DIRECTION

As with audio and video equipment, Display Corporations has a wide range of entertainment lighting systems: spotlights, trusses, light mixers and everything you need to take your event to the next level.

Our lighting technicians are also highly specialized and have years of experience in the entertainment industry.
